Forts

Forts provide a stimulus for imaginative play & helps to develop a child's confidence. Climbing, jumping, swinging, leaping are all part of risk play which helps develop their coordination, ability to focus and is a stimuli for their fight or flight triggers.

Activity Forts

Elevated Activity Forts leave room for all the fun activities kids love to do - climb, slide, play house, ships and more. It creates a fun environment for kids to explore and tends to impress parents as a result. Elevation Options: • 450 mm Elevation • 900mm Elevation • 1200mm Elevation • 1500mm Elevation

*Custom
Designed
Playgrounds*

Whether its your custom design or ours, we can work with the space you have and keep your centres requirements and vision in the forefront of the build.

Custom Designed Cubby House

***Are you
looking for a
unique cubby house?***

Or have an idea for a cubby house and need a team to help build it? Our team can help create a custom designed cubby house with storage areas, timber seats, benches and more. Our designers and cubby house team will help create a unique and memorable cubby house for your childcare centre.

Decking

Sand Pits

Bark Pits

There are several types of bark depending on your intended use. You can have soft fall, standard bark & mulch in various colours.

Astroturf & Softfall

Our Astroturf is top quality, and realistic. We love a artificial grass that is thick, lush and looks real. We can provide soft fall for fall zones or turf only, we can even mix. Our artificial turf wont be over powered by sand, it will feel good on the feet and we have a heat resistant option for over exposed areas. Talk to us about options!

Colourful Astroturf

Wet Pour

Provides a safe and durable surface which dramatically reduces the chance of injuries whilst providing an attractive play area for children, that guarantees compliance with AS 4422:2016

Bike Paths

Bike Paths

The introduction of wheeled toys into a play space is an ideal way of encouraging social and fantasy play as well as active play. It's a fun way to teach directions, teach give way rules and ultimately build confidence on bikes or scooters. You can have:

- different surfaces to create different sounds
- Road signs
- bridges or hills
- simple arrows or road markings
- one way or two way
- walk ways & more

Tunnel Mounds

Tunnel Mounds

Natural Features

Water Features

Sensory Gardens

Create a space to inspire the senses and let kids discover new sounds, sites, smells & feelings. This could be done with stepping paths leading to garden teepees, musical walls, veggie gardens and various plants with textures.

Stepping paths

Garden Teepees & Yarning Circles

Bridges

Accessories

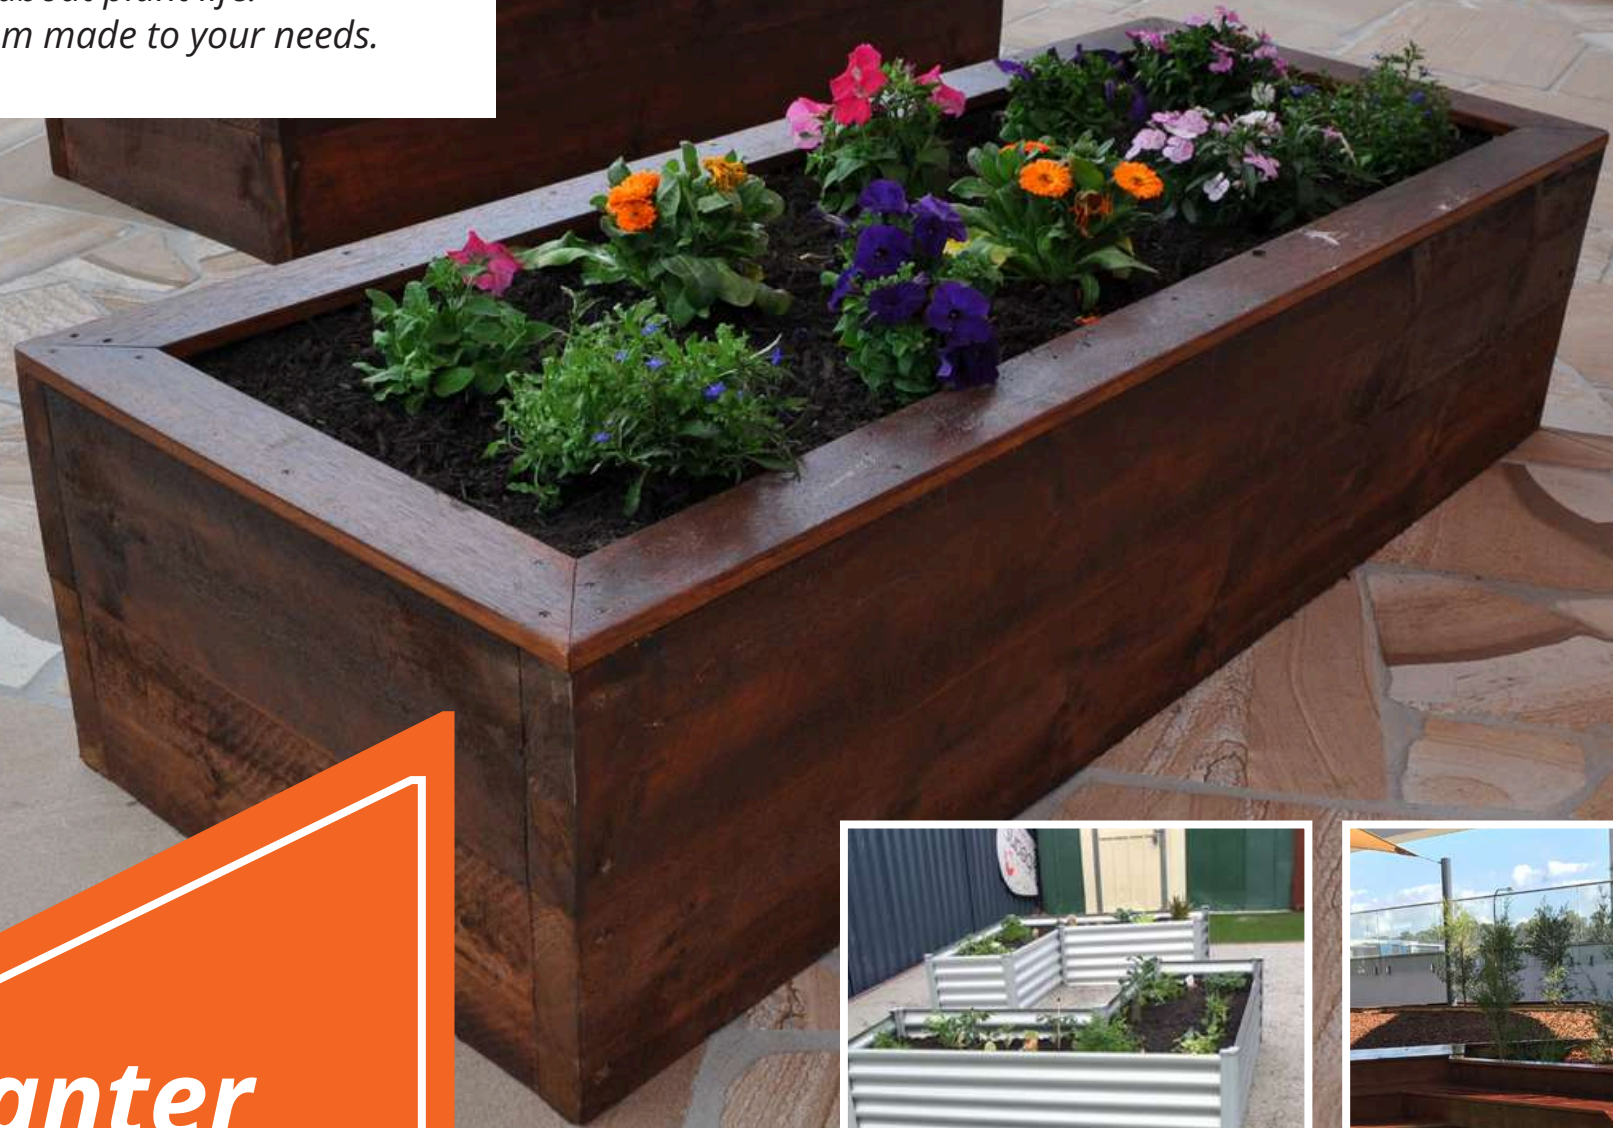

Playground Accessories

Music stimulates a child's curiosity, encouraging them to discover new sounds, new rhythms, wonder how a sound is made, and so much more.

Musical Walls

*A fantastic way to shape your garden beds and create a secure area for planting veggies, flowers and learning about plant life.
All custom made to your needs.*

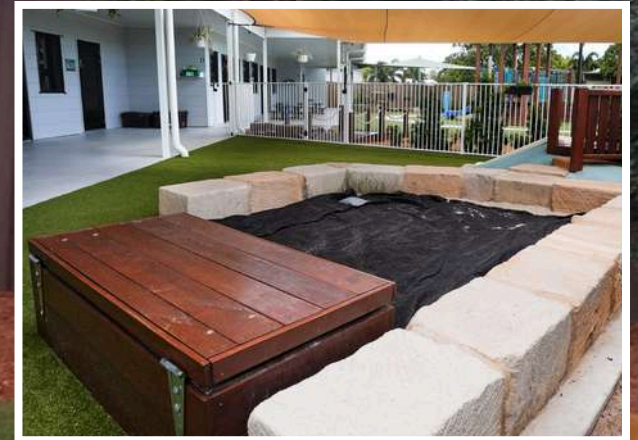

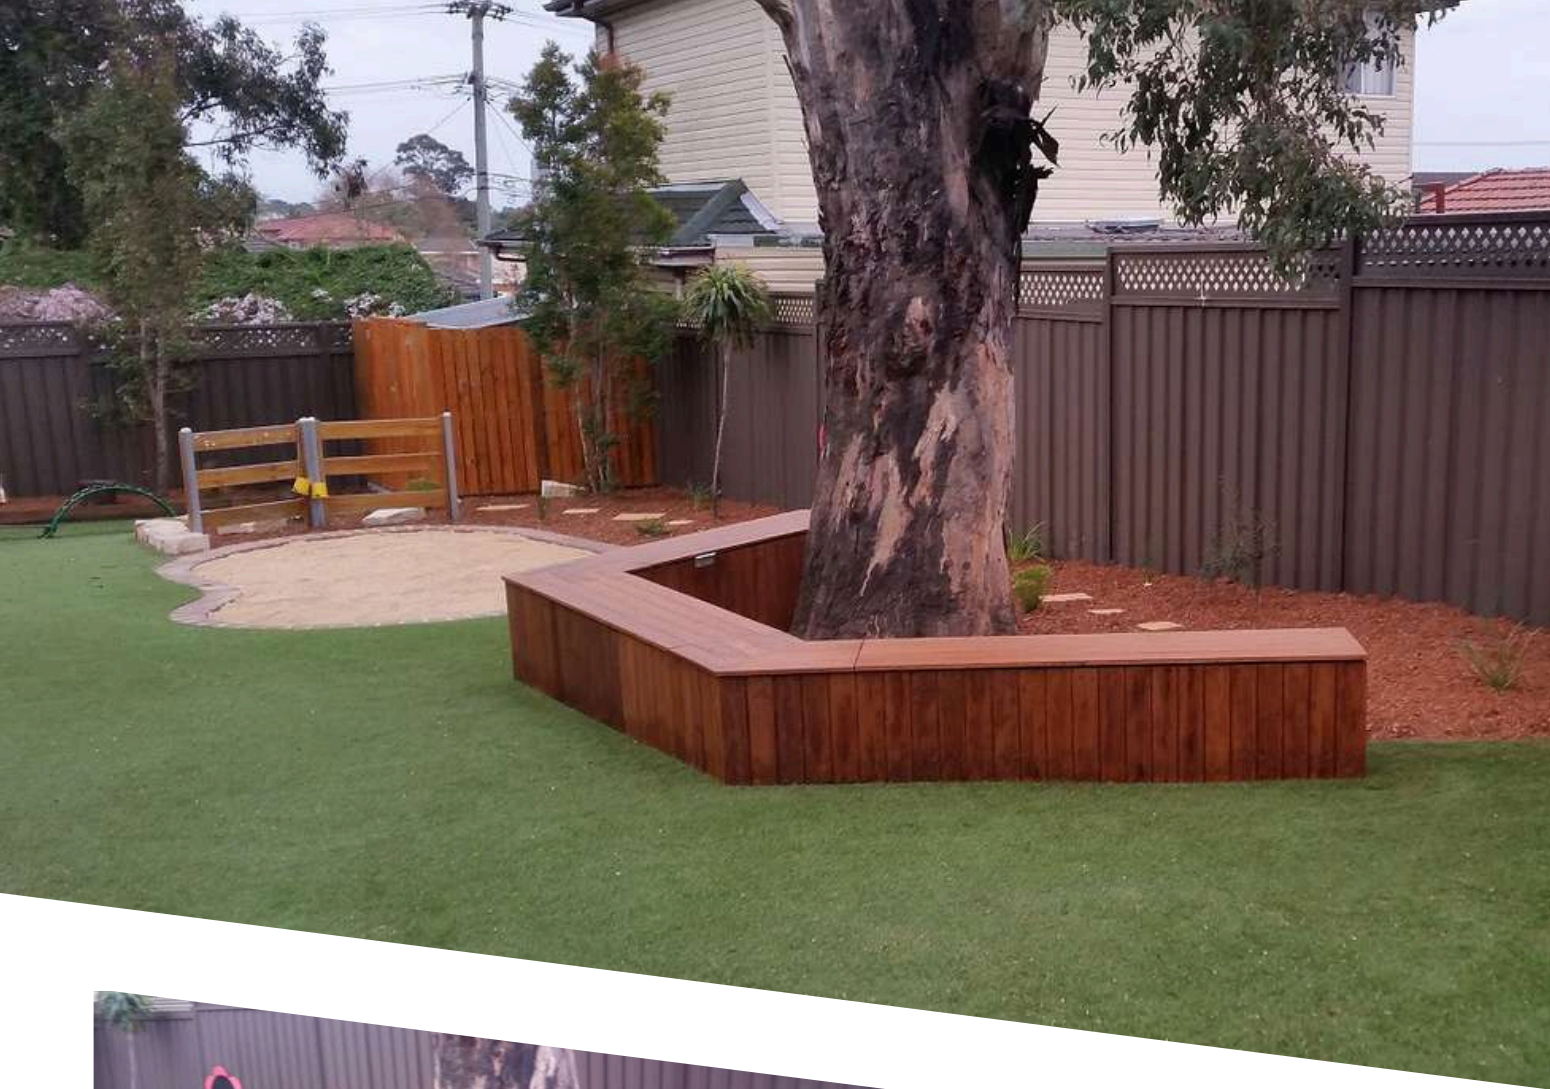

Planter boxes

***Storage
boxes***

Need creative storage places for the outdoor toys and blankets? Why not build a seat with hidden storage. All custom designed to fit your area.
